# PUSHING WORK ON COMMISSION PASSES WESTERN PACIFIC

old Force Is Again Employed and Men Being Hired

WILL RESUME TRACK

and that now between 400 and 500 men are employed between this city and Elko, Nev. This is virtually a return of the force that was at work before the financial collapse last fall, when almost the entire force was suspended. No time now is being lost in pushing the work forward in an endeavor to

the work forward in an endeavor to eatch up with lost time.

Many men are at work in the Flower lake tunnel, which is about a mile long, and it is expected that the reck work will be finished about the middle of August. The timbering of the tunnel will take some two or three menths, so it will be well into the middle of October before the work is finally completed. To Resume Track Laying.

To Resume Track Laying.

The track is now within two miles of the east portal of the tunnel and the mention is to resume the laying of track about July 20. While the tunnel is being timbered work will not be delayed, as it is intended to build around it and put in a "shoofly," so that track laying can proceed. The grade is built to Wells, and the laying of slell from the west end of the tunnel on toward that place will go on unintermptedly. As a matter of fact, the conm toward that place will go on unintermptedly. As a matter of fact, the construction work will be pushed on toward Elko, which is 262 miles distant from Salt Lake, and it is expected that at the end of five months, or the end of the year, the road will be very close to Elko, if it has not entered that place.

very close to Elko, if it has not ex-tered that place.

It thus is expected that the entire line, including the tunnel, should be completed to Wells and ready for oper-ation by the middle of October, and, as has been heretofore stated in these columns, it is highly probable that trains will be running by that date.

SECRETARY GARFIELD TO VISIT TWIN FALLS

Secretary of the Interior James R. affield, who has just returned from visit to Honolulu, will visit Idaho on usslay next and inspect the new Southide irrigation project at Twin Falls.
Is leaves Rupert, on the Minidoka
branch, by train on Tuesday morning,
will reach Burley about 1:30 and then
will proceed to Twin Falls.

Railroad Notes.

Some of the Idaho delegates to the Some of the Idaho delegates to the Denver convention, occupying the car Fleetwood, arrived in Salt Lake Saturday, on route home. The New Jersey delegation will arrive today, on its way to the Yellowstone park. They will spend the day in Zion before going north. The delegates are traveling in a special train of four standard sleepers, a diner and a baggage car.

Ed Hunt, Rio Grande agent at Butte, ame in from the north Saturday even-ing with a carload of tourists bound for Drawer and the east.

The order bill nossess a certain degree of negotiability while the "straight" bill will be non-negotiable. the requirements of the banking con-cerns of the country which advance vast sums of money on bills of lading. The changes have all been in the direc-The changes have all been in the direction of greater simplicity in the interest of the shipping public. The bill is more or less a compromise. It imposes important obligations which carriers have not heretofore assumed, but retains exceptions to which some shippers may object. The commission looks to the best adjustment practicable of a long standing controversy which affects the business interests of the country. The commission expressly retains the right to exercise its authority as to any provisions of the new bill which under the test of experience may be proper.

under the test of experience may be proper.

The commission does not undertake to prescribe the bill of lading, because it is convinced such action would exceed its authority. It is understood, however, that the new bill will be adopted by all the railroads in the official classification. The commission recommends that the new bill be adopted generally on September 4.

The good people of Zion were somewhat mystified Saturday morning when Dr. Hyatt, the weather prophet, prognosticated partly cloudy weather for Sunday. What could be the reason that it was not going to be "fair and warmer?" Everybody thought that something unusual was in the air, but just exactly what that something unusual" was could not be

comething unusual" was could not be determined until an official of the weather bureau made a "break" in the evening which solved the problem.

The truth of the matter was then made evident that bir. Flyati and the employees of the weather bureau were going for a trip on the Great Salt Lake Sunday in the speedy launch liene, and the doctor, being doubtful as to whether he could bear the pelting rays of the sunderlied that cloudy weather might be more comfortable.

# SHORT LINE DEPOT IS ASSUMING SHAPE

Reinforced Concrete Pillars Have Now Reached Second Floor in Both Wings.

FOOT BRIDGE WILL BE ERECTED NEXT MONTH

Steel for Central Portion of Structure Will Arrive Within Sixty Days.

One hundred and twenty-five men were actively at work on the new joint Oregon Short Line and Salt Lake Route depot Saturday, and already the reinforced concrete pillars have reached the height of the second floor on both the south and north wings of the structure. In another week both floors will be finished, so far the the concrete work is concerned. There will be three floors in each wing.

in each wing.

The central portion of the structure, running to a height of 100 feet on South Temple, will be of steel, and all the material will be on the ground within sixty days. Part of it will arrive here in thirty days, but it will take sixty days to finish the order. Immediately it is received it will be put in place. This will occupy some three weeks, and the whole structure will be roofed before gloomy winter arrives.

Residents in the western portion of the city will welcome the news that the steel for the foot bridge, which will span South Temple, from Third to Fourth West streets, will be on hand within thirty days, and immediately upwithin thirty days, and immediately up-on its receipt the steel structure will be put in place, thus expediting travel to and from these two sections of the eity. This bridge for pedestrians is necessary because of the closing of South Temple, and the piers are already

Now Asking for Bids.

Bids are now being asked for the stone and brick work, the electrical fittings, and the plumbing and heating work. When received they will be classified and the successful contractors determined.

Although much work has yet to be accomplished, the building is now assuming definite shape. The pillars are still inclosed in the wooden boxes, but a view from the west gives some idea of the contour of the structure. All the appropriations have been made for the building and with no interruptions. the building and with no interruptions in the future, and none are expected, the Union station will be an accomplished fact by the end of April or beginning of May, 1909.

After 45 years' study of Nature and her vantages and ability go without saying, and I unhesitatingly declare, and my un paralleled record as a successful specialist in private discases of men backs up my claim, that more men have been cured by me of VARICOCELE, HYDRO-CELE. NERVO-SEXUAL DEBILITY. BLOOD FOISON and REFLEX DISOR-BLOOD FOISON and REFLEX DISOR-DERS within the last 35 years than by any twenty specialists in the United States combined. This fact is self-evi-dent and indisputable, and, with my rates more reasonable and treatment more successful you do wrong to experi-ment with concerns whose methods are being frequently changed, and whose doc-tors are the strappings together of trans-cient and defunct concerns. Concerns the strapping together of trans-cient and defunct concerns. information with the proofs so conclusive that you will not regard them as selfish

#### Nervo-Sexual **Debility Cured**

## VARICOCELE AND ITS REMEDY

Scrotal Varicoccie has been described as a creeping disease. It silently steals upon its victim like a thief at night and before he is really aware of its presence great and damaging inroads are made upon his constitution. The veins surrounding the spermatic cord become enlarged and engaged with impure blood and disease tissues. At times this condition may be accompanied with a duil, disagging pain in the small of the back, extending down into the parts, low spirits, weakness of body and brain, nervous debility partial or complete loss of the sexual powers, and not infrequently decline of the general health. All these disagreeable symptoms soon disappear completely and forever under my Varicoccie cure, which is safe, painless and bloodless. Every clot of stagmant blood and every fiber of diseased tissue are driven from the infected parts, normal circulation is re-established throughout the pelvic region, the weakened organs become strong again and sturdy manhood is restored.

## REFLEX AND ASSOCIATE DISEASES

Are those which are present and act to aggravate and favor the progress of the main malady. I never dismiss a case until cured in every particular. If the case is complicated with Hydrocele (dropsy of the scrotum), Hemorrholds, Fis-sure, Fisthia, or any form of disease. I cure such additional complaint also, so that the cure may be perfect and per-manent. manent.

Heflex effects of all polvic compiaints are destructive to the tone of the Sympathetic Nerves. The debilitating effects on the general health and strength are demonstrated by such manhood sapping agents as Varicocele, Stricture, Blood Poison and Discharge-producing Virus. I cure both causes and effects and restore men so victimized by their own folly or by inheritance of Blood Taint.
